

Login (STEP 1)

Go to www.atlanticib.com and click the "Online Banking Login" link located on the right side of the homepage.

On the login page follow the instructions on the page to login using your Atlantic International Bank Security Token.

Then click "Continue".

Transfer Money (STEP 2)

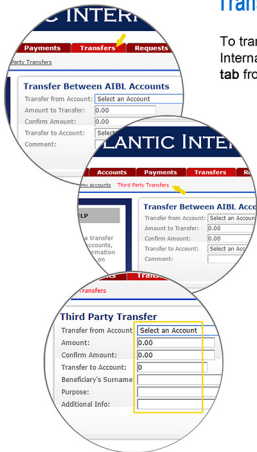

To transfer money from your account to another Atlantic International Bank account simply select the **Transfers** tab from the menu.

Click the "Third Party Transfers" option located on the Transfers page.

On the Third Party Transfers page,

- Select the account you want to transfer from
- Enter the amount you want to transfer
- Confirm the amount you want to transfer
- Enter the beneficiary's account number
- Enter the beneficiary's surname or full company name
- Enter the purpose of the transfer
- Enter any additional information that you think is necessary for you to remember this transaction

Once you are satisfied that the information you have entered is correct, click "Next".

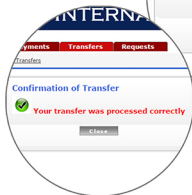

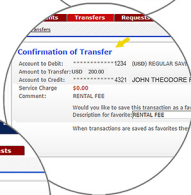

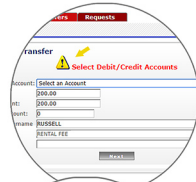

Verification & Confirmation Page (STEP 3)

If any of the information entered was incorrect or missing, you will see the "Caution" sign at the top of the screen. Please fill in the correct information before clicking "Next" once again.

If all the information entered is correct, the Confirmation of Transfer page will pop up. Review the information, then save the transaction as a favorite and/or click "Process" so that the transfer can be processed.

You will then see the Confirmation page stating that your transfer was successful.

Click "Close" to continue with other online banking transactions or Log off.

Log Off (STEP 4)

To help protect your account information, it's important to properly log off when you are finished banking online.

Click the "Logout" button located at the upper righthand corner of the page.
